

IN THE SPECIFICATION

Please amend the first full paragraph (lines 7 – 11) of Page 4 of the present application (located within the “Detailed Description of the Preferred Embodiment” portion thereof) as follows:

When the user does not need to utilize this invention, it provides for easy stowing. The user must simply grasp the frame 12 and rotate in a downward fashion about the hinge 10. As the frame 12 rotates, the storage pouch 14 bends and folds neatly into a wall 18 of the trunk opening ~~[[wall]]~~ 16. In its stowed position, the storage pouch 14 will be out of the way and will allow for full access of the trunk space 8.
